

Team Project

Team: Carri Beshears and Phuong Tseng

Project Selection: Scenario 1 - Hospital Funding and Health Equity

Git Repository link: [phtseng/phw251: Graduate school group project \(github.com\)](https://github.com/phtseng/phw251-Graduate-school-group-project)

Roles and responsibilities:

- **Meeting planning:** Main communication by text message and email with the teaching team as needed for feedback on the project. Weekly meeting scheduled throughout the end of term to be completed virtually. Each week meeting needs will be evaluated based on work load and adjusted as needed. Each team member will provide inputs, discuss improvements, integration, and any adjustments needed at weekly meetings.
 - If non-academic events arise, we will communicate and adjust meeting dates, times, and workload accordingly. On weeks that we have more capacity, we will try to complete our milestones early then request GSIs or instructors for feedback and guidance.
- **Roles:**
 - Carri: Create agenda for weekly meetings based on project needs and requirements. Schedule time with GSIs as needed for content and as required by assignment.
 - Phuong: Maintain project integrity to ensure work completed in weekly sessions are properly pushed to github. Submit finalized assignments.
- **Conflict management:** If conflict arises, discuss during weekly zoom calls. If needed, reach out to GSI team for guidance.
